

CONSTRUCTION CHEMISTRY

PERFECT PREPARATION

CONSTRUCTION CHEMISTRY

Whether working with plasterboard, concrete or masonry, the construction chemistry product range from Protektor provides the perfect basis for achieving optimal results. Creating the proper substrate conditions is essential for any professional painting, plastering or wallpapering job. Protektor construction chemistry offers a product range that provides perfect priming tailored to the varied requirements of differing substrates. Our various primers ensure that you have a surface for all smooth, highly absorbent, poorly adhering or bleeding substrates. Water-based, solvent-free and eco-friendly bonding primers – for a professional result.

- ✓ **Betonkontakt (Concrete contact)** – Bonding coat on smooth
Concrete Bonding coat for gypsum plaster and gypsum-based render systems
- ✓ **Aufbrennsperre (Absorbent substrate primer)** – Reduces suction
Primer for substrates with high or varying absorbency
- ✓ **Putzgrund (Plaster primer)** – white-pigmented bonding primer
Containing quartz e.g. before the application of decorative plasters
- ✓ **Tiefengrund (Deep primer)** – solvent-free, unpigmented, deep penetrating primer
Primer for stabilising chalky and sandy substrates
- ✓ **Sperrgrund (Barrier primer)** – isolating and sealing primer
For sealing bleed-through substances e.g. for decorative plasters and renders

PERFECT PRIMING: CONSTRUCTION CHEMISTRY

Ausgabe: 10/18

Item number	Description	Usage (depending on substrate)	Contents	Pallet contents
-------------	-------------	-----------------------------------	----------	-----------------

Betonkontakt (Concrete contact)

NEW

Bonding bridge on smooth concrete.

- ▶ For interior applications
- ▶ Red-pigmented
- ▶ Alkali-resistant
- ▶ High bonding strength
- ▶ Ready for use, dilutable to 10%

Bonding bridge for gypsum plaster and gypsum-based plaster systems and adhesive binder on smooth concrete.

1440	Betonkontakt	0,20 - 0,30 kg/m ²	20 kg	24
1441	Betonkontakt	0,20 - 0,30 kg/m ²	6 kg	70

Aufbrennsperre (Primer for absorbent substrates)

NEW

Reduces absorbency.

- ▶ For interior and exterior use
- ▶ Yellow-pigmented
- ▶ High resistance to alkalis
- ▶ Ready to use and as concentrate (dilutable from 1:1 to 1:4)

Primer for substrates with high or varying absorption.

1442	Aufbrennsperre	0,10 - 0,20 l/m ²	15 litres	24
1482	Aufbrennsperre Konzentrat	0,05 - 0,10 l/m ²	15 litres	24
1443	Aufbrennsperre	0,10 - 0,20 l/m ²	5 litres	70
1483	Aufbrennsperre Konzentrat	0,05 - 0,10 l/m ²	5 litres	70

Putzgrund (Plaster primer)

NEW

White-pigmented quartz primer.

- ▶ For interior and exterior use
- ▶ White-pigmented
- ▶ Stabilises the suction of the substrate
- ▶ Weather-resistant
- ▶ Ready for use, dilutable to 10%

Primer e.g. before the application of decorative plasters and renders.

1444	Putzgrund	0,20 - 0,30 kg/m ²	20 kg	24
1445	Putzgrund	0,20 - 0,30 kg/m ²	6 kg	70

Tiefengrund (Deep primer)

NEW

Solvent-free primer.

- ▶ For interior and exterior use
- ▶ Unpigmented
- ▶ For mineral-based substrates
- ▶ Reduces and stabilises absorption
- ▶ Ready to use

Unpigmented primer for stabilising chalky and sandy substrates.

1446	Tiefengrund LF	0,15 - 0,20 l/m ²	10 litres	50
1447	Tiefengrund LF	0,15 - 0,20 l/m ²	5 litres	96

Sperrgrund (Barrier primer)

NEW

Isolating and sealing primer.

- ▶ For interior and exterior use
- ▶ White-pigmented
- ▶ Specially formulated to resist substances in the substrate
- ▶ Improves mechanical adhesion
- ▶ Ready to use

Primer for sealing bleed-through substances e.g. for decorative plasters and renders.

1448	Sperrgrund	0,20 - 0,30 kg/m ²	15 kg	24
1449	Sperrgrund	0,20 - 0,30 kg/m ²	6 kg	70
